PARIS, le 2 May 1958

Dear Dr. Lederberg,

I would much appreciate a copy of your paper in J. Bact 75 143 1958 on protoplasts + L-type growth of E. coli. It is interesting that you managed to find some more DAP requiring mutants by your zone penicillin effects, but disappointing that you didn't pick up any other wall defects.

With best wishes,

Yours sincerely

Elizabeth Work.
